This diagram is for reference only and might not be accurate. Please reference the GPLv3 for the full text and more legal description on the open source and redistribution requirement.

So in Summary...

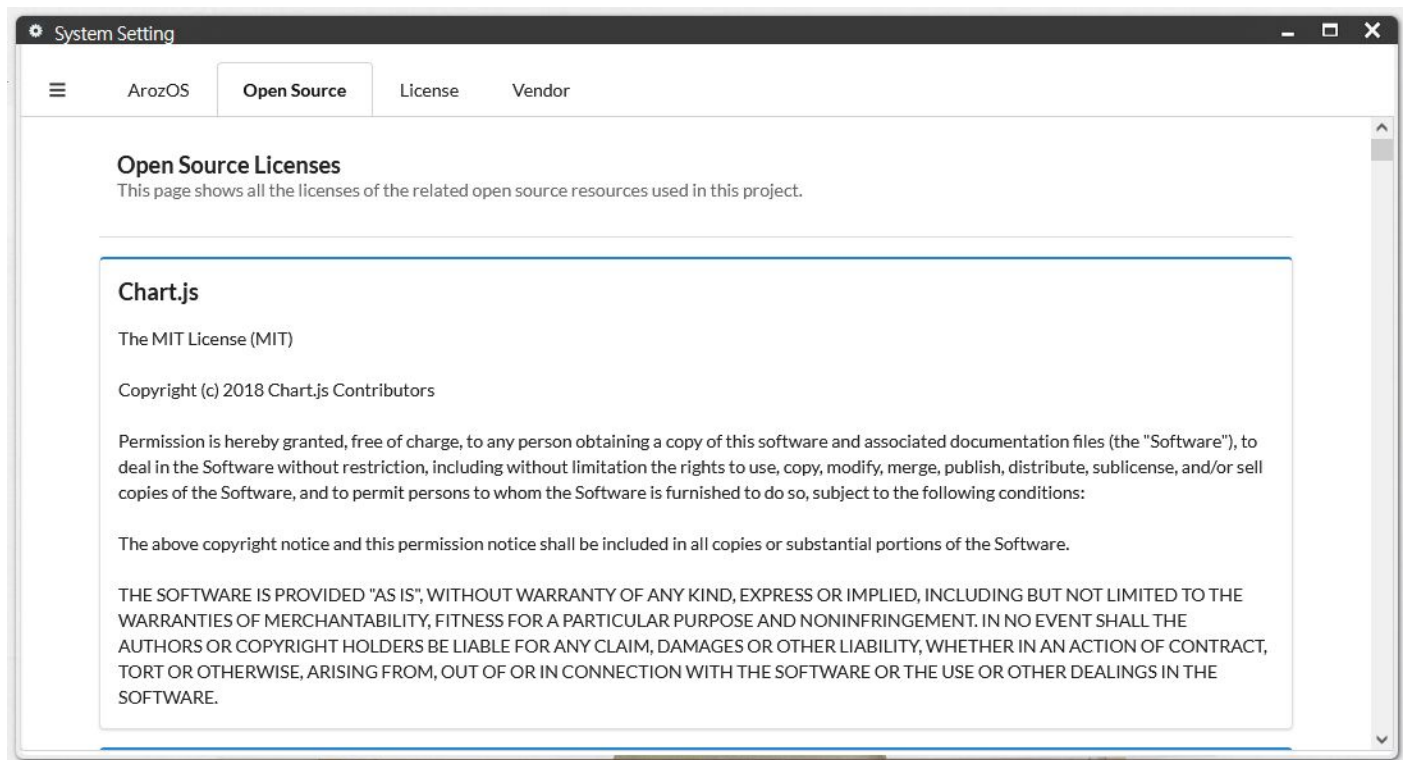

- You can redistributed or use ArozOS in commercial scenero as soon as you follows the GPLv3 requirements
- No, we do not charge for any license fee
- We also don't charge for email enquiry for opinions, asking for general questions (on how the system works / how to use a certain function)
- You can always reach all of the coauthors at our Telegram group <https://t.me/ArOZBeta>

Keeps in mind that

- Some of the materials / resources used in ArozOS might be licensed under separate license (Mostly MIT / Apache, but some resources such as stock images and audio files are licensed separately. Check LICENSE file in each submodules / library or the “Open Source” tab in the system)
- Documentation are licensed in **GNU FDL**
- All Mascot design, logos and some image resources are **CopyRight ArozOS authors, All Right Reserved**

You can easily replace these resources with your own in the web/img/ and SystemAO/vendor/ folders

Subservice / WebApps and Licensing

- **ArozOS GPLv3 License do not cover its webapps /subservices**
- I.e. You don't need to open source any webapps / subservice you developed for the ArozOS
- Feel free to license the webapps / subservice you developed with your own choice of license or even close source / sell it

See subservices / webapp templates here:

<https://github.com/aroz-online/WebApp-and-Subservice-Index>

But we will be happy if you can

- Put the author's name, project link and its license on somewhere easy to spot
- Contribute on any security patches, Pull Request or issues
- Help resolving technical issues with the system

END OF SUMMARY
